

CLASSIC EUROPEAN TWIN SHOCK CHAMPIONSHIP

CETSC

News 2011

Christer Garver, December 10, 2010

An international OLT/CETSC meeting was held in Gremersdorf, Germany, November 13, 2010. The following is an overview of the CETSC-news for 2011. See further details in "CETSC Regulations 2011" on <http://www.classicmx.se>

Upgrade of Classic European Twin Shock Cup to be Classic European Twin Shock Championship

Beginning 2011 the Twin Shock class will be Classic European Championship.

Therefore the class changes name from TSC to CETSC.

The discipline will continue like before, but the winners of **CETSC -50** and **CETSC 50+** will be honoured as **Classic European Champions!**

CETSC Committee 2011

For the total function of the CETSC, it is important to have a good communication between the CETSC riders/-Race organizers and the CETSC-committee. Therefore the following representatives are welcome as new members of the CETSC committee!

Niels Erik Mogensen Denmark and Max Wagener, the Netherlands.

Niels Erik and Max are not only contact persons for CETSC questions, but also riders in the Twin Shock class! Furthermore Niels Erik is a well known Clerk of the Course in Denmark, and Max is the treasurer in the Dutch Twin Shock association.

See <http://www.classicmx.se> for complete contact details.

Technical news:

Silencer of later design, for the purpose of lower noise level, is allowed.

The noise level at the races is more and more noticed as a trouble outside the race track areas.

For us, coming to enjoy the races, the "Old sound" is a part of the total experience!

In a lot of cases neighbours and local authorities require a lower noise level from clubs and organizers, in some cases as a condition for the continuation of the activities. Therefore it is important to keep up with the development/not exceed max. noise level allowed, and preferable be one step ahead.

This addition has been introduced to the regulations to avoid doubts about what is allowed.

Races 2010 OLT/CETSC

Races 2011	Date	Place	Country	Confirmed
